

VistaPoint: VT110

IP Camera Field Kit

The VistaPoint, part number VT110, is a complete IP Camera Field Kit. It has been designed to ease camera installation for security dealers. The VistaPoint connects directly to the RJ-45 Ethernet port of an IP camera. The IP Discovery Tool (IPDT) scans devices within the base IP address of the unit. Once found the user can launch the camera's web page and use the video to set the camera's focus, field of view and any other parameter available on the web page. Also included is an IP Address Change Tool which allows the user to quickly set a static IP address to Local Area Connection or change the LAN port back to a DHCP setting.

The VT110 version of the VistaPoint weighs less than 3.5 lbs and is a Windows 7 Pro based ruggedized convertible computer. Simply set the VistaPoint LAN IP address to the base address you wish to scan for, connect the unit to the camera via the Veracity PINPOINT Adaptor or POINTSOURCE, launch the tool, touch "Scan", touch "Discover" and the IP address of the camera will be displayed. Merely double click on the IP address and the camera's web site will open. The VistaPoint works with most IP cameras and its 10" screen allows large video displays to aid focus setting.

As most camera installations occur while the technician is on a ladder, the VistaPoint provides a convenient form factor enhancing technician safety and speeding the installation process.

Applications:

- IP Camera Installations
- Remote Access Trouble Shooting
- Cable and Network Debug
- IP Access Control System Install/Debug
- IP Device Identification

Contents:

- Ruggedized Convertible Computer
- Stylus
- IP Camera Discovery S/W
- IP Address Edit Tool
- Veracity PINPOINT Adaptor or POINT SOURCE

Options:

- Spare Battery
- 12 ft CAT 5 Ethernet Cable

Overview:

- 10.1" resistive touch (finger or pen) TFT display (1366x768): finger print resistant
- Netbook form factor with convertible display (Tablet)
- Dual Core Intel Atom processor
- Built-in wired and wireless (802.11b/g/n) LAN
- Ruggedized design
- Built-in handle for easy carrying on job site

ViSTA Networking Solutions

Specifications:

SUPPLIED ACCESSORIES

Battery Chargers	AC Charger
OS Restore	1 Microsoft OS CD
Camera Connection	Veracity PINPOINT or POINTSOURCE

SYSTEM

Processor	Intel Atom N2600 Dual Core
Internal Memory	2 GB
Operating System	Windows 7 Pro
Storage	250 GB SATA Shock Mounted
Battery	6 Cell

VIDEO

Touch Screen	TFT Display, Finger Print Resistant
Resolution	1366x768
Tablet Mode	Integrated Accelerometer for picture rotation
Display	10.1"

I/O Ports

Audio	2 x Audio jacks: Head phone or Mic-in
Ethernet (LAN)	10/100 Mbps (RJ-45)
USB	2 USB 2.0 Ports
Wireless LAN	802.11b/g/n
Camera	Integrated 2.0M Rotational Camera
Auto Boot Switch	AT/ATX Switch (AT setting boots when power is applied)
Video Out	1 x VGA port/Mini D-sub 15-pin for external display 1 x HDMI

PHYSICAL

Unit Weight (gross)	Approximately 3.35 lbs (1.52 kg.)
